

## São Vitor's High-Performance Natural Flat Wick | HP-NF

High-Performance Cotton Natural Flat Wicks by São Vitor are constructed using a blend of long strand tightly braided cotton and natural fibers. These wicks were developed for soy/paraffin blends and combine burning properties of natural fibers and the hot throw characteristics of cotton wicks.

### Wick Features:

**Constructed from a blend of long-strand, tightly braided cotton and natural fibers. Designed to be used for soy and paraffin blends.  
Engineered to combine the burning properties of natural fibers and the hot throw characteristics of cotton wicks.**
